5th International Scientific and Practice Congress "WOUNDS AND WOUND INFECTIONS"

21–23
December
2021,
Moscow

Dear colleagues!

On December 21–23, 2021 in Moscow, at Federal State Budgetary Institution "A. V. Vishnevsky National Medical Research Center of Surgery" of the Ministry of Health of Russia will host the 5th International Scientific and Practical Congress "Wounds and Wound Infections" with the conference "Problems of Anesthesia and Intensive Care of Wound Infections". The upcoming congress will be dedicated to the S. S. Girgolvav 140th anniversary, which will be reflected in the forum scientific program. This year, we will focus on the problems of peacetime and wartime trauma complicated by purulent infection in children and adults, the peculiarities of anesthesia and intensive therapy for it. The problem deserves the attention of doctors of various specialties – purulent and reconstructive surgeons, traumatologists, anesthesiologists-resuscitators, rehabilitation therapists – and we look forward not only to an interdisciplinary congress with a broad discussion, but also to develop joint clinical guidelines.

The organizing committee draws the attention of healthcare organizers (chief doctors of medical institutions, chief surgeons of the constituent entities of the Russian Federation, departments and ministries of health) to the upcoming congress and recommends sending their specialists to participate in it.

The Congress will be held from 21 to 23 December at the address: Moscow, Bol. Serpukhovskaya st., 27 (Federal State Budgetary Institution "A. V. Vishnevsky National Medical Research Center of Surgery" of the Ministry of Health of Russia) with online broadcast (or online in the absence of lifting the restriction regime).

Congress program and main themes:

1. Development of a strategy for assisting victims with complicated trauma in peacetime and wartime – the history of the problem.
2. Pathogenesis of the wound process in trauma complicated by surgical infection.
3. Extensive wounds and soft tissue defects of traumatic genesis in children and adults.
4. Open fractures of long bones in children and adults.
5. Combat trauma and features of mine and explosive injuries in children and adults.
6. Crush-syndrome in children and adults.
7. Anaerobic non-clostridial infection with closed and open injuries of soft tissues and bones.
8. Early reconstructive skin and osteoplastic operations in trauma complicated by surgical infection.
9. Anesthesia and intensive care for soft tissue and bone trauma complicated by surgical infection in children and adults.
10. Extracorporeal detoxification methods for soft tissue and bone trauma complicated by surgical infection in children and adults.
11. Hyperbaric oxygenation with extensive defects of soft tissues and bones in children and adults.
12. Organization features of medical and surgical care for victims of peacetime trauma and emergency situations.
13. The role of nursing care in organizing and providing assistance to victims of peacetime trauma and emergencies.

Abstracts sent before the 10th of September 2021 will be published in the congress information package after approval by the Organizing Committee.

Abstracts up to 4 pages in electronic form (MS WORD, Times New Roman font, text size 12, interval 1.0) must be sent on the e-mail: 9057176757@mail.ru. In the end of the text there should be listed surname, name, paternal name, address with the postcode, telephone number and e-mail.

The name of the text – capital letters.

Surnames, names and paternal names of author and co-authors – capital letters.

The name of healthcare or scientific organization, where the author or co-authors work; the city and the country – lower case letters.

Note. If co-authors work in different organizations, it is needed to put ordinal number after the surname of each co-authors, and in graph "The place of work of co-authors" it is needed to notice consistently the organizations.

The structure of abstract. The names of headings: "Relevance", "Object", "Materials and Methods", "Results", "Discussion", "Conclusions".

Note. If the theme of abstract is "Clinical case", the name of headings isn't needed to keep up. After the name of the heading the sentence should begin from the lower case letter.
