

P R E S S - R E L E A S E

**The 6th International Congress
“DIABETES MELLITUS, ITS COMPLICATIONS AND SURGICAL INFECTIONS”**

**27–29
November
2024,
Moscow**

Dear colleagues!

On November 27–29, 2024, in Moscow, the A.V. Vishnevsky National Medical Research Center of Surgery, subordinate to the Ministry of Health of Russian Federation, will host the 6th International Scientific and Practical Congress “Diabetes Mellitus, Its Complications and Surgical Infections”.

In the structure of morbidity among residents of economically developed countries, diabetes mellitus occupies one of the first places. Its prevalence ranges from 5.0 to 12.0 % of the population in different countries. According to the forecast of the International Diabetes Federation (IDF), the number of such patients by 2040 will exceed 600 million people. Patients with carbohydrate metabolism disorders make up a significant portion of those seeking help from doctors of various specialties (endocrinologists, surgeons, therapists, ophthalmologists, cardiologists, neurologists, etc.). In this regard, issues on organizing an interdisciplinary approach to the treatment of such patients and cooperation of various medical institutions to provide long-term follow-up are important.

Due to the urgent state of this problem, Surgical Society – Wounds and Wound Infections, Russian Association of Endocrinologists, A.V. Vishnevsky National Medical Research Center of Surgery, National Medical Research Center of Endocrinology have decided to jointly hold this scientific forum (archives of previous events are on website www.woundsurgery.ru). It is extremely important to unite physicians of various specialties in a joint congress for exchanging their experiences and expanding their scientific knowledge.

The effectiveness of further development of specialized medical care for patients with diabetes mellitus and its late micro- and macrovascular complications, for patients with comorbid diseases, especially with surgical infections, entirely depends on the formation of a unified interdisciplinary approach and cooperation between specialists in all regions of the Russian Federation. In this regard, all interested medical workers are invited to participate in the 6th International Congress “Diabetes Mellitus, Its Complications and Surgical Infections”.

The Organizing Committee draws attention of healthcare organizers (chief physicians of medical institutions, heads of departments and ministries of health of regions of Russian Federation, chief surgeons) to the upcoming forum and recommends to send their specialists to participate in it.

The Congress will be held from November 27 till November 29, 2024, by the address: 27 Bolshaya Serpukhovskaya Str., Moscow, Russia (A. V. Vishnevsky National Medical Research Center of Surgery) with online broadcast.

Congress program:

1. Diabetes mellitus and its complications
 - Epidemiology of diabetes mellitus and its complications. Federal Register of Diabetes Mellitus.
 - Economic aspects of diabetes mellitus and management of its late vascular complications.
 - Peripheral arterial diseases as the manifestation of diabetic macroangiopathies.
 - Diabetic microangiopathies and their role in the onset and course of surgical infection.
2. Diabetes mellitus and surgical infection as the most difficult problem of modern medicine.
 - Morphological and immunological features of wound process in patients with diabetes mellitus.
 - Modern technologies in the treatment of surgical infection in diabetes mellitus.
 - Prevention of chronic infectious lesions in patients with diabetes mellitus

5. Issues of modernization and optimization of diabetes services in the Russian Federation.
 - Formation of new clinical and statistical groups under existing ICD diabetes codes.
 - Updating the National Clinical Guidelines on diagnostics and treatment of various forms of diabetic foot syndrome.
6. The role of nursing care in organizing and providing care to patients with diabetes.

Abstracts sent before September 15, 2024, and after the approval by the Organizing Committee, will be published in the congress proceedings.

Abstracts up to four pages in electronic form (MS WORD, font Times New Roman, size-12, spacing 1.0) should be sent by e-mail: 9057176757@mail.ru. The text should be preceded by author/authors full name, place of work with postal code, contact phone number, e-mail address.

P R E S S - R E L E A S E

Abstract title – in capital letters.

Full name of author and co-authors - in lower case letters.

Author and co-author affiliation - in lower case letters.

Note: If the co-authors work at different institutions, they are identified by an asterisk symbol with the caption of their affiliations.

Structured abstract specifications: Relevance, Objective, Material and Methods, Results, Discussion, Conclusions.

Note: If the abstract is "Clinical case", their no need to keep to the structured abstract specifications.

Attention! Participation in all scientific events and a certificate of participation with NMO scores are free of charge for all registrants! Payment is made only for the package of conference participant (if one needs it).

Participant Package Price:

Members of the RPO "Surgical Society -

Wounds and wound infections", speakers *

- 0 ₺

Clinical residents, graduate students, nurses

- 1000 ₺

Physicians, lecturer, professors

- 2000 ₺

Membership package includes:

- participant's portfolio (conference program, proceedings, information material)
- issue of the journal "Wounds and wound infections. The Prof. B. M. Kostyuchenok Journal".

Payment for the participant's package will be made at registration.

*How to join the Society - information at website www.woundsurgery.ru.

Venue: 27 B. Serpukhovskaya Str., Moscow, Russia A.V. Vishnevsky National Medical Research Center of Surgery
