**7th International Scientific and Practice Congress "WOUNDS AND WOUND INFECTIONS"
with the Conference "Problems of Anesthesia and Intensive Care of Wound Infections"**

**25–27
November
2025,
Moscow**

Dear colleagues!

On November 25–27, 2025, the 7th International Scientific and Practical Congress "WOUNDS and Wound Infections" with the conference "Problems of Anesthesia and Intensive Care of Wound Infections" will be held in Moscow at the Vishnevsky National Research Medical Center of the Ministry of Health of the Russian Federation.

This year, we will focus on the problems of peacetime and wartime trauma complicated by purulent infection in children and adults, and the specifics of anesthesia and intensive care for it. Traditionally, we will discuss the features of modern protocols for the diagnosis and treatment of wounds and wound infections various etiologies and localization. The problems deserve the attention of various specialties doctors – purulent and reconstructive surgeons, traumatologists, anesthesiologists, intensive care specialists, rehabilitologists – and we look forward not only to holding an interdisciplinary congress with a broad discussion, but also to developing joint clinical recommendations.

The Organizing Committee draws the attention of health care organizers (chief physicians of medical institutions, chief surgeons of the subjects of the Russian Federation, departments and ministries of health) to the upcoming congress and recommends sending their specialists to participate in it.

The Congress will be held from 25 to 27 November 2025 at the A. V. Vishnevsky National Medical Research Center of Surgery Ministry of Health of the Russian Federation (27 Bolshaya Serpukhovskaya Str., Moscow, Russia) with an online broadcast.

The Congress program:

1. Development of a strategy for providing assistance to victims with complicated trauma in peacetime and wartime – the history of the problem, modern aspects.
2. Pathogenesis of wound process in surgical infections.
3. Extensive wounds and soft tissue defects of traumatic origin in children and adults – issues of surgical treatment and subsequent reconstruction.
4. Open fractures of long bones in children and adults.
5. Combat trauma and features of mine-blast injuries in children and adults.
6. Prolonged compression syndrome in children and adults.
7. Anaerobic non-clostridial and clostridial infection with closed and open lesions of soft tissues and bones.
8. Local treatment and biophysical technologies for wounds and wound infection.
