**International scientific and practical conference
“SPECIFIC ISSUES IN THE TREATMENT OF WOUNDS AND PURULENT- NECROTIC FOCI IN CHILDREN AND ADULTS”**

20–21

May
2025,
Moscow

Dear colleagues!

On May 20–21, 2025, an international scientific and practical conference titled “Particular Issues in the Treatment of Wounds and Purulent-Necrotic Foci in Children and Adults” is scheduled to be held in Moscow.

Natural and man-made disasters, the annual increase in the number of patients with severe skeletal injuries, the rise in cardiovascular and systemic diseases, and diabetes lead to a steady increase in the number of patients with chronic wounds and non-healing defects of soft tissues and bones due to a complicated course of traumatic disease or the presence of concomitant diseases. The overall increase in life expectancy and the comorbidity of patients make the discussed topic extremely relevant! The issue deserves the attention of doctors from various specialties: infectious and reconstructive surgeons, traumatologists-orthopedists, mammologists, proctologists, anesthesiologists-resuscitators, rheumatologists, oncologists, dermatologists, rehabilitation specialists, and professionals with secondary medical education. We expect not only to hold an interdisciplinary conference with a broad discussion but also to develop joint clinical guidelines.

The organizing committee draws the attention of healthcare administrators (chief physicians of medical institutions, chief surgeons of the constituent entities of the Russian Federation, departments and ministries of health) to the upcoming forum and recommends sending their specialists to participate in it.

The conference will be held on May 20–21 at the following address: Moscow, Bolshaya Serpukhovskaya Street, house 27 (Federal State Budgetary Institution “National Medical Research Center for Surgery named after A. V. Vishnevsky” of the Ministry of Health of Russia) in person with online broadcasting (or online if restrictions are introduced).

Conference program:

1. New domestic developments of various medicinal products for the local treatment of wounds (antiseptic solutions, wound dressings, sorbents, oils, aerosols, ointments, etc.).
2. Local drug treatment of wounds with medications containing an antimicrobial component as an alternative to long-term systemic antibacterial therapy.
3. Outpatient stage of local drug treatment of wounds, bedsores, trophic ulcers, diabetic foot syndrome, patients with chronic osteomyelitis of various localizations, and acute purulent diseases of the skin and soft tissues.
4. Old “traditional” or new medications for the prevention and treatment of wound infections (it is possible to organize symposia by pharmaceutical companies).
5. Multicomponent sorbents or ointments based on polyethylene glycol in the comprehensive treatment of skin and soft tissue infection foci.
6. Road traffic injuries, military trauma, natural and man-made disasters, sports and household injuries with skin damage. Rational choice of dressings, both at the stage of providing first aid and evacuation, and at the hospital stage of treatment.
7. Medications for the local treatment of wounds with anaerobic clostridial and non-clostridial infections.
8. Features of diagnosis in purulent surgery in children and adults.
9. Strategy for surgical treatment of patients with wounds and purulent-necrotic foci in peacetime and in cases of combat injuries.
10. Mycoses — the current state of local drug treatment, problems and prospects, differential diagnosis.
11. Purulent hidradenitis as a multidisciplinary problem.
12. Systemic and local use of bacteriophages for the treatment of wounds and purulent-necrotic foci.
13. Features of local drug therapy for chronic wounds (modern dressings, bacteriophages, larvae).
14. Modern biophysical methods of treatment of chronic wounds (NPWT, ultrasound cavitation, argon plasma technologies, hydrosurgery, etc.).
15. Rehabilitation and patronage of patients with chronic wounds of various etiology and localization.
16. Features of anesthesia and intensive care for wounds and wound infection in children and adults.
17. The role of nursing in the organization and provision of care for wounds and wound infections in children and adults
18. Organizational aspects of outpatient care for patients with wounds and wound infections in the context of ongoing reforms (experience from outpatient surgery centers, day hospitals, dressing clinics with small operating rooms, etc.).

Abstracts submitted before March 25, 2025, will be published in the in the congress information package after approval by the Organizing

P R E S S - R E L E A S E

Committee.

Abstracts up to four pages in electronic form (MS WORD, font Times New Roman, size-12, spacing 1.0) should be sent by e-mail: 9057176757@mail.ru. The text should be preceded by author/authors full name, place of work with postal code, contact phone number, e-mail address.

Abstract title – in capital letters.

Full name of author and co-authors - in lower case letters.

Author and co-author affiliation - in lower case letters.

Note: If the co-authors work at different institutions, they are identified by an asterisk symbol with the caption of their affiliations.

Structured abstract specifications: Relevance, Objective, Material and Methods, Results, Discussion, Conclusions.

Note: If the abstract is "Clinical case", their no need to keep to the structured abstract specifications.

Attention! Participation in all scientific events and a certificate of participation with NMO scores are free of charge for all registrants! Payment is made only for the package of conference participant (if one needs it).

Participant Package Price:

Members of the RPO "Surgical Society - Wounds and wound infections", speakers *	- 0 ₺
Clinical residents, graduate students, nurses	- 500 ₺
Physicians, lecturer, professors	- 1500 ₺

Membership package includes:

- participant's portfolio (conference program, proceedings, information material)
- issue of the journal "Wounds and wound infections. The Prof. B. M. Kostyuchenok Journal".

Payment for the participant's package will be made at registration.

*How to join the Society - information at website www.woundsurgery.ru.

Venue: 27 B. Serpukhovskaya Str., Moscow, Russia A.V. Vishnevsky National Medical Research Center of Surgery

Exhibition: 27 B. Serpukhovskaya Str., Moscow, Russia A.V. Vishnevsky National Medical Research Center of Surgery

Address of the Organizing Committee:

117997 Moscow, B. Serpukhovskaya str. 27,
Vishnevsky National Medical Research Center of Surgery
