International scientific practical conference
"Skin and Soft Tissue Surgical Infections of Children and Adults"

15–16
of May
2017,
Simferopol

Dear colleagues!

On May 15–16, 2017 RPO "Surgical Society – Wounds and Wound Infections", A.V. Vishnevsky Institute of Surgery of Ministry of Health of Russia, Research Institute of Emergency Children Surgery and Traumatology of Moscow Healthcare Department, Moscow Healthcare Department, LLC "Russian Society of Surgeons", International Foundation for Children in Catastrophes and Wars are planning the **International scientific practical conference "Skin and Soft Tissue Surgical Infections of Children and Adults"** devoted to the 140th anniversary of Prof. V.F. Voyno-Yasenetsky birth

There are a lot of names of outstanding doctors, scientists, surgeons in the history of medicine from antiquity to the present day, which took up problems of the treatment of wounds and wound infections in their real life and career. Valentin Feliksovich Voyno-Yasenetsky or Archbishop Luke is the center piece in the galaxy of eminent people!

He is known by secular-minded activity for the benefits of his motherland and of the people, was picked up the highest award of that period – I degree Stalin Prize for the "Essays of purulent surgery", and also by no less spectacular service of God, recognized the canonization of his name in the Orthodox Church. Wars, repressions, deportations and personal tragedies could not break the personality and spirit of this incredible scientist and priest, doctor of medicine and doctor of theology, surgeon and religious writer! On the eve of the 140th anniversary of the V.F. Voyno-Yasenetsky birth we tremblingly announce with great joy that the forthcoming conference, taking place at the native land of Valentin Feliksovich, in the Crimea, and it will be devoted to his cherished memory!

The purpose of the upcoming scientific forum is a detailed review of modern approaches to diagnosis and treatment of skin and soft tissue surgical infections of adults and children – that problem which was occupied by V.F. Voyno-Yasenetsky and is not faded nowadays.

The effectiveness of the further development of the system that will be specialized on medical care of adults and children with skin and soft tissues surgical infection entirely depends on formation of the unified approach to the treatment and to the continuity between practical specialists in all Russian regions. In this regard we are glad to invite all interested medical professionals to participate in **the International scientific practical conference "Skin and Soft Tissue Surgical Infections of Adults and Children"**.

The Organizing Committee draws the attention of the Health organizers (the Chief Physicians of Medical and Leisure Institutions, Surgeons-in-chief from Russian entities, Departments and Ministries of Health) to the forthcoming conference and encourages them to send their specialists for participation).

The conference will be held from 15 to 16 May in Simferopol – the homeland of Prof. V.F. Voyno-Yasenetsky.
